Measuring Tools

Few tools are as widely used across the world as the tape measure.

We at OX recognise that and build our tapes to last the test of time. Durability, reliability and innovation are the words we think when designing a new line of tapes.

OX has enhanced it's reputation as a leading tape rule manufacturer with the launch of the new Pro Series short tape, which boasts an impressive 2.8M stand out whilst remaining an extremely compact design.

PRO HEAVY DUTY TAPE MEASURE – 5M

Plastering & Dry Lining Tools

No trade is as demanding on the design of its tools as the plastering trade. Many tools look the same, but the OX Range has been tried and tested by tradesmen and offers unmatched quality.

OX tools do what you want them to do, over and over again.

A tough, durable design for the professional plasterer – you'll probably wear out before they do!

Plastering & Dry Lining Tools

PRO MixM8 MIXING PADDLES – HEX / M14

FEATURES

- GUARANTEED – Faster mix even using a cordless drill (min 18V)
- GUARANTEED – Less effort and smoother final mix
- Long life and easy clean
- Edge to edge mixing - no need to stop and stir
- 10mm Shaft version fits a standard chuck and can be used with a standard 18v cordless drill - no need for power on site when mixing
- Far less strenuous - no more chasing your mix around, just hold the MixM8 in the centre of the bucket and let the blades do the work

Product Code	Barcode	Size	Order Qty	Box Qty
OX-P121910	5060359915443	10mm Hex	1	6
OX-P122014	5060359915450	14mm M14	1	6

PRO SDS PLUS – M14 (F) ADAPTOR

FEATURES

- Converts M14 thread to a SDS Plus fitting
- Enables quick and easy conversion of M14 threaded paddle to be used with SDS drill

Product Code	Barcode	Size	Order Qty	Box Qty
OX-P122101	5060359918604	for 14mm M14	1	25

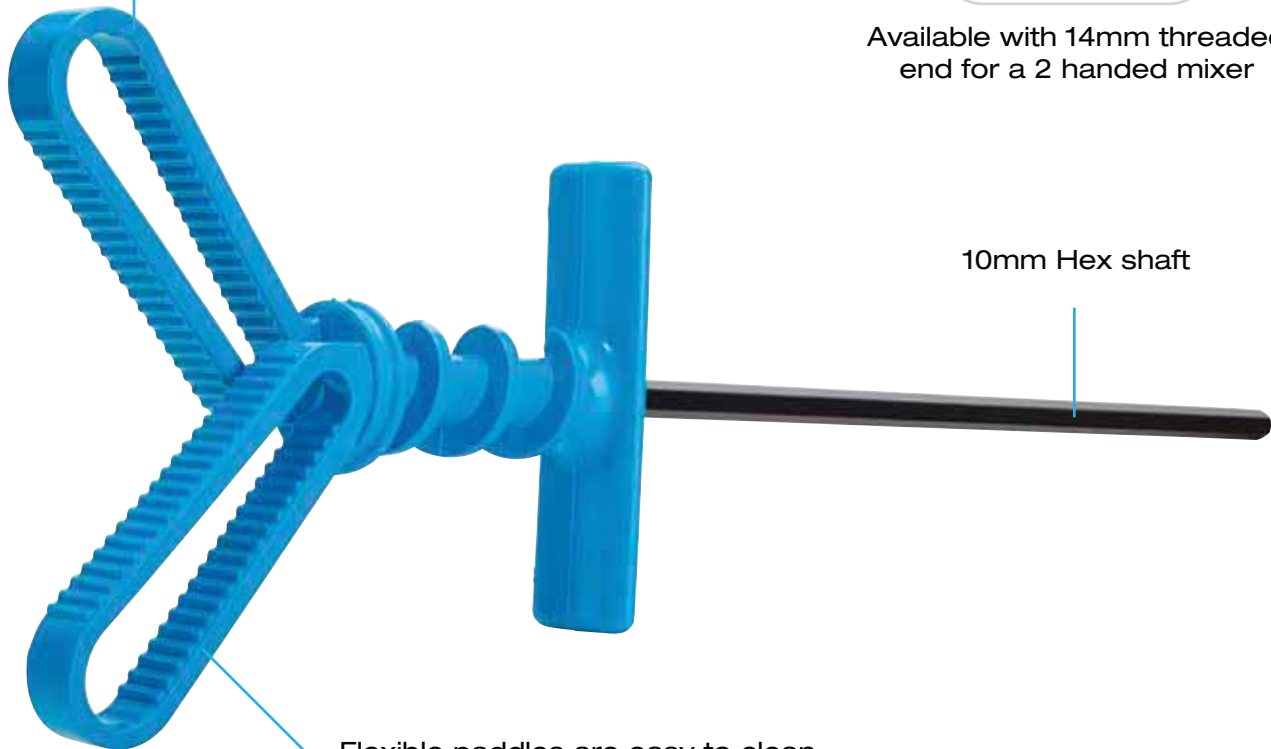

Unique patented design gives faster & better quality mix

Available with 14mm threaded end for a 2 handed mixer

10mm Hex shaft

Flexible paddles are easy to clean and will not damage your bucket

INSTRUCTIONS FOR USE

- For best results: use a 25l plastering bucket
- It is essential that the water is put into the bucket before the powder (11.5 litres for a whole 25kg bag of multi-finish plaster).
- Empty the full bag or bags of plastering product into the bucket and allow the mix to settle into the water for a few seconds.
- Once the mixture has settled insert the mixm8 blade tool into the mix and fully immerse the tool in the centre of the bucket.
- Hold the tool vertically and once fully immersed apply the power slowly and once the vortex starts increase to full power.
- Hold the tool vertically in the centre of the bucket and allow the tool to do the work.
- You can lift the tool up and down but you do not have to chase the mix round the bucket as you would do with a conventional mixer.
- No need to stop and scrape the side of the bucket as the mix is pulled in and down. check your mix after 35-40 seconds as it may be ready to apply.
- To clean just run the blade in a bucket of clean water for 3-4 seconds, pull it out and you will have a perfectly clean blade.

Concreting Tools

Concreting is hard work and the OX range has been developed to stand the test of time.

Look at the detail of the products – the quality and thickness of the steel, the perfect amount of flexibility, the positioning of the handles, the quality of the riveting – the complete finish.

A tough range of trowels to cement your reputation.

Tool Storage

Like you, we take our work seriously and believe that every detail has to be designed and manufactured with great care to ensure our products really work and also look good.

If you are looking for hardwearing, functional tool storage solutions to cope with the most extreme work conditions – OX has what you need!

Extremely tough construction

Extra heavy duty steel handle with moulded grip

Multiple use tool compartments

Straps for securing levels and longer items

Waterproof rubberised base moulded to the fabric

Handsaw compartment

PRO ROUND TOP TOOL BAG

FEATURES

- Extremely tough construction for ultimate durability
- Injected polypropylene hard base
- Strong rubber grip handle and padded shoulder strap
- Multiple use tool compartments
- Waterproof base moulded to fabric

World leading technology...

OX has redefined excellence in the world of circular saw blades with the introduction of it's new superfast range.

These revolutionary saw blades have a stronger tooth bond that provides up to 50% longer life. The carbide teeth are made from a tougher than standard carbide that stays sharp longer and are sharpened to finer more durable cutting edges that produce a faster and straighter cut.

Blade cores are made from the highest quality steel, precision engineered, ground and hardened.

Blade selection & presentation

Wood – speed cut/coarse finish

For ripping through softwood, hardwood & plywood.

Wood – cross cut/medium finish

For cutting through softwood, hardwood & plywood.

Wood – fine finish

For cutting through softwood, hardwood, plywood, MDF, hardboard and wood laminates.

Wood – extra fine finish

For very fine finish when cutting through softwood, hardwood, plywood, MDF, hardboard and wood laminates.

Aluminium/Plastic/Laminate – extra fine finish

For cutting non-ferrous metals including aluminium, plastic and wood laminates.

Wood cutting blade

A range of high quality circular saw blades designed for a professional finish and long cutting life.

Alternate Top Bevel (ATB) tooth configuration for the pro tradesperson

Reamed bore to ensure precision fit to spindle

Expansion slots

Embedded tungsten tip

Supplied with reducing rings (extra care must be taken when mounting blade to machine when using these)

Safe and secure blister pack

Supplied with reducing rings

Safety / PPE

If you are looking for hardwearing, functional Personal Protection Equipment to cope with the most extreme work conditions – OX has what you need.

Like you, we take our work seriously and believe that every detail has to be designed and manufactured with great care to ensure our products really work and also look good.

By controlling the entire chain, from design to production to the central warehouse, we can be sure that our products are of unmatched quality and consistency.

All OX safety products meet 'EN or CE standards' where applicable.

OX is known for a 'whatever it takes attitude'. Our products pass extensive network of quality checks. If we have failed somewhere in the chain, we will correct it. To us a failed product is the same as a broken trust.

Once you have tried OX Safety you will never leave it!

How to become an OX Re-Seller

The **OX** Advantage...

1. Signing up

Becoming an OX re-seller is simple. Schedule a meeting with one of our dynamic account managers and they will discuss our program, extensive product range and how we can help you grow your sales and increase your profits. Your account manager will suggest a program specifically suited to your store.

2. Starting the program

Once your account application is approved, you may begin ordering. Our customer for life culture is woven into our DNA and we'll support your store with staff training when needed, on site service and support.

3. Customer Service

Forge Products' highly motivated Customer Service Team is dedicated to providing you with information, solutions and a fast response. Their expertise covers a wide range of areas including product information & enquires, ordering, price & availability and order tracking.

4. Shipping

Forge Products Inc has built up a reputation for excellence with an exceptionally high stock level and efficient fulfilment and dispatch system. We have a 98% fill rate.

Orders received by 12:00pm PST are dispatched the same day.

Net \$500 order qualifies for FREE FREIGHT.

5. Returns

Sale or return policy

No sale – No risk, No dead stock

If you cannot sell a mainstream **OX product** within 3 months of purchase, simply return it in a suitable condition for a full refund.

Call our Customer Service Hotline
Monday - Friday, 8am - 5pm
